

Good afternoon staff of Clydesdale Bank. The mass mis selling of Tailored Business Loans by your colleagues in Nab Capital is the reason why you are in this mess. Your colleagues in Nab Capital used Clydesdale Bank as a vehicle to force 8,300 small businesses into interest rate swaps embedded into fixed rate loans. Have you considered the impact of FCA intervention? Do you realise that it could cost the bank up to £4 billion in refunding businesses the overcharged interest and consequential damages? Do you trust NAB with your future? Has NAB any control over the futures of Clydesdale Bank?
